

Queensland Transport and Logistics Council

Representing the freight transport and logistics industry to influence policy, regulation, infrastructure planning and investment to achieve sustainable and productive supply chains.

Who we are?

The Queensland Transport and Logistics Council (QTLC) is a cooperative industry and government advisory body that provides advice to industry stakeholders and state and federal governments on the development, planning, regulation and operation of freight and logistics transport, infrastructure and services in Queensland.

The QTLC is jointly funded by the Queensland Department of Transport and Main Roads (TMR) and the Australian Government's Department of Infrastructure and Regional Development (DIRD).

What we do?

As the peak industry body representing the views of the freight transport and logistics industry, the QTLC advocates for the provision of infrastructure, regulation and policy that will support sustainable freight transport and logistics in Queensland.

The QTLC supports the efficient movement of freight in order to support sustainable and productive economic development and prosperity by pursuing:

- appropriate and ongoing investment in supply chain infrastructure
- integrated regional and urban planning frameworks that secure land for current and future freight corridors
- an access policy and regulation environment that facilitates productivity and innovation
- efficient integration and linkage of freight and logistics systems across the whole supply chain.

The QTLC works towards operational and strategic solutions to impediments and issues within the freight supply chain with both long term and immediate benefits for industry.

More information on the QTLC and its activities can be found at www.qtlc.com.au or email admin@qtlc.com.au
